

Matching Socks

PSED

Mathematics

Age 24-36 Months

10 Mins

About the Activity

Want a little laundry helper? Your child can learn how to match socks of the same colour, pattern or size easily! This supports their knowledge of size, pattern and colours and allows child and parent bonding and preparation for school.

Activity Steps

1

Gather 4 pair of socks which vary in size colour or pattern

2

Place them on the table or carpet in different order

3

Show your child how to pair a pair of socks (if needed) and ask your child to pair up the socks

4

Extension Use language to describe the patterns and colours of the socks.
